

Armor-Ace

Shine Enhancer

DESCRIPTION

Armor-Ace is your premium choice when you want your floors to shine for a long...long time. It cleans, it restores, it enhances shine and it strengthens the floor finish to resist wear, thus reducing the frequency of recoating and stripping...and that saves you time and money!

Armor-Ace floor finish top shield...it's like adding the protection of armor plating to your floor. An easy to use, highly concentrated, unique blend of tough polymers and neutral surfactants synergistically combined to restore your floor finish to a wet look shine while cleaning it.

Armor-Ace will not 'build-up', yellow or affect the slip-resistance of your floor finish. **Armor-Ace** dries quickly, is low-odor and effective when applied with an auto-scrubber or with a standard blended finish mop.

DIRECTIONS

Remove loose soil with a dust mop.

Auto Scrubber:

Add 3 to 4 oz. of **Armor-Ace** per gallon of clean water (24 to 32 ml/litre) (1:43 to 1:32). Scrub floor with medium grade pad.

Mop-On:

Add 2 oz. of **Armor-Ace** per gallon of clean water (16 ml/litre) (1:64). Fully saturate your finish mop in the **Armor-Ace** solution, then wring out until it's damp and apply to the floor.

Burnishing:

Burnish your **Armor-Ace** 'plated' floor to a wet look gloss with a medium, medium-aggressive pad on a 1500 or greater rpm machine.

Re-application:

Use **Armor-Ace** when necessary on high traffic areas.
