

Coast 309

Heavy Duty Degreaser

DESCRIPTION

Coast 309 is a highly concentrated degreaser specially formulated to emulsify heavy oil and grease deposits. **Coast 309** is the perfect solution for cleaning engine parts, vehicle maintenance floors, machine shop floors, underground parking lots and asphalt floors. **Coast 309** also works well in food processing plants for cleaning and degreasing floor, warehouse and storage areas.

Even though it's a heavy duty formula and aggressively tackles grease build-up, **Coast 309** will not harm industrial painted surfaces when used as directed and is a low foaming product that can be used in pre-soak foaming arches and automatic scrubbers. **Coast 309** is also excellent for transportation equipment maintenance and locomotive cleaning where carbon dust residue is difficult to remove. This free rinsing product does not have offensive fumes and will save you money by working quickly at effective dilution ratios to penetrate oily and greasy soils.

SPECIAL INFORMATION

Coast 309 is a Canadian Food Inspection Agency (CFIA) approved product for use in registered food processing plants. Surfaces in direct food contact must be rinsed with potable water.
