

# Premium Bilge Cleaner

## DESCRIPTION

Old Salty *Premium Bilge Cleaner* is a heavy duty, biodegradable surfactant concentrate that uses the natural motion of the boat to emulsify and dissolve the oil, grease and fuel spills that collect in engine compartment and bilge areas.

## DIRECTIONS

Apply 1 oz (30 ml) Old Salty *Premium Bilge Cleaner* for every 4 feet (1.2 m) of bilge water line. Add directly to the bilge water. Allow the motion of the boat to clean the bilge, then pump out. Repeat procedure until the bilge is free of grease, oil, fuel and contaminants.

To ensure effective coating on the bilge surface, be sure there is some Old Salty *Premium Bilge Cleaner* in the bilge all the time.

## SECTION 7 – PREVENTATIVE AND CONTROL MEASURES

**Respiratory Protection:** Normally not required. Use a NIOSH/MSHA approved dust/mist respirator if product is misted/sprayed in confined areas.  
**Ventilation:** Good general ventilation or local exhaust ventilation for spraying and misting in confined areas.  
**Protective Gloves:** Recommended to minimize skin contact. Natural or butyl rubber, nitrile, or neoprene gloves.  
**Eye Protection:** If product is misted or sprayed, wearing of safety goggles or glasses is recommended.  
**Protective Clothing and Equipment:** Long sleeve clothing. Eyes wash recommended in the immediate work area.  
**Storage and Handling Procedures:** Use good industrial hygiene. Do not get in eyes. Avoid contact with skin, and clothing. Avoid breathing sprays or mists. Store in a cool, dry place away from incompatibles and direct sunlight. Vent caps may be required to prevent a build-up of pressure that could cause containers to burst. Do not mix with any other chemicals. Store below 30°C. Keep from freezing.  
**Disposal Procedures for Spills or Leaks:** Wear protective equipment. Dike and contain large spills. Pump spill into a clean waste container. For small spills, soak up with a suitable absorbent such as clay, soil or commercially available absorbents, and scoop into a clean waste container. Keep material away from sewers and natural waters.  
**Waste Disposal Method:** Reuse if possible. Otherwise dispose recovered material in accordance with all local, Provincial or Federal regulations.  
**Special Shipping Information:** Store at temperature below 30°C. Keep from freezing.

## SECTION 8 – EMERGENCY FIRST AID PROCEDURES

**First Aid:**  
 If swallowed, give plenty of clean water to drink to dilute product. Do not induce vomiting. Call a Physician. In case of contact with eyes, flush with clean water for 15 minutes.
