pH in concentrate: 6.0

Directions:

1. Remove all loose soil and debris from area being cleaned.
2. Spray **DISAPPEAR** generously about 30 cm (12 in.) from stained area and allow to air dry. Use a full spray pattern and avoid water spotting by using less around the outside perimeter of stain.
3. On deep pile carpets, tamp affected area with brush or carpet rake to gently work into pile. DO NOT SCRUB OR BLOT the treated area.

In cases of extreme staining, a second application may be required.
